OUTPOST

OUTPOST is an outdoor display system to be used for posting information near public venues, outside cultural institutions and other sites. OUTPOST is sturdy and withstands inclement weather. OUTPOST comes in two sizes: OUTPOST and BIG OUTPOST.

The system consists of a single frame in stainless steel. The bearing vertical rod in the middle functions like a telescope, making it easy to tauten the banner. The system is built upon an 8-cm thick special stand to ensure OUTPOST withstands strong wind. The stand has holes for attaching all fittings.

ORDERING BANNER

ORDER BANNER PRINT 50 x 375 CM FOR OUTPOST AND 60 x 465 CM FOR BIG OUTPOST.

We recommend that banners for both formats are finished/sewn with a 10-cm border at both ends. Fire-resistant print materials should be used.
