

BUGSYSTEMS.COM

SITE

## SITE

SITE is an extremely light and easy to use display system with scored-plastic plates and fittings in stainless steel and aluminium. The system can be constructed in a broad range of formations. SITE makes it possible for you to build square "towers," zig-zag constructions, "house-of-cards" patterns and more.

SITE comes in a standard 80 x 200-cm format.

Printed matter is glued directly onto the plate. SITE is especially well suited to moving or temporary exhibits. Scored-plastic plates available in opal white or transparent.

SITE can also be ordered in other formats – please contact us for other dimensions and prices.

### ORDERING PLATES

YOU MAY ORDER SITE FITTINGS ONLY, AND ORDER PLASTIC PLATES FROM YOUR OWN SUPPLIER.

80 x 200 cm x 10 mm Thermoclear plate is recommended.
