SPACE

SPACE is an exceptionally simple exhibition system. Easy to assemble and move around – stands in a resilient curve, light as a feather. SPACE consists of a hard poster plate in scored plastic and a stand of stainless steel. SPACE comes in a standard 80 x 200-cm format.

Printed matter is glued directly onto the plate. SPACE is especially well suited to traveling exhibits or temporary displays. It is possible to purchase the SPACE stand and order the poster plate from your own supplier.

Kvorning Design & Communication can also deliver graphic design and print for poster plate. Please contact us.

ORDERING POSTER PLATE

80 x 200 CM x 10 MM THERMOCLEAR IS RECOMMENDED.
